

## Task 1

- Exploratory testing charters to document your testing. You can use simple format of: Explore target, with resources, to discover information Findings from your charters.
- I have added Exploratory test case in a excel named **#Monefy-Exploratory TestCase Documents.xlsx#**
- Did everything work as expected? What bugs were discovered?
- **Total test case = 123, PASSED = 100, FAILED = 23.** For details, please check excel.
- Prioritization of those charters - which area of the app or testing would you explore first and why?
- Testing charters are prioritized in excel.
- How much time you have planned for each charter?
- Total estimated time is **153 minutes** (2.5 hours, approximately).
- What kind of risks you need to mitigate for this type of application?
- 1. Data security 2. Data backup (as the app runs in offline/online mode)
